CONSTRUCTION, INC.

ROOFING SIDING SHEET METAL SERVICE

Working on River1 Project

**Let me shoot you straight.** Construction is not for the faint of heart; it requires grit, determination, discipline, and the will to persevere. If you and your employer are not on the same page it just compounds all the challenges that already exist in an already challenging industry. **Not much of a marketing pitch huh?**

**Our goal is to challenge the status quo for what it means to be a worker in the construction industry.** At Wenger, we care about the relationship we keep with our employees, their personal development, the benefits we provide, and building our bench strength so that we can promote from within. The greatness of a team is not just

measured by its current leaders, but also by who those leaders are bringing up behind them for the future.

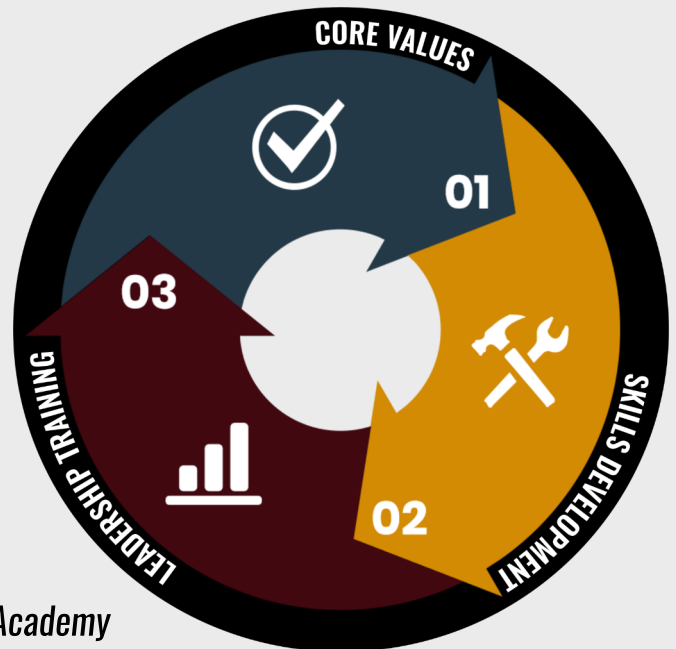

**What does that mean for you?** It means you have the ability to come in here, grow, and progress in your construction career. Our Foreman, Project Managers, and Executives for the most part grew up organically in this business under Wenger and have been able to provide more for the company and their families. **That is why this will be your final destination in your construction journey!**

Siding Team working on Excel Engineering Project
