JOB TITLE: SIDING PROJECT MANAGER

Founded in 1997, Wenger Construction, Inc. is a family-owned commercial roofing, siding and sheet metal company based out of Campbellsport, WI. We are looking for hard working people to join our work family who have a desire to work for a company that cares about their workers, recognizes and pays for value and offers opportunities for growth.

Job Summary: Wenger Construction is looking for an experienced and highly motivated Project Manager to manage and oversee our Milwaukee projects. A company vehicle will be provided for this position, but the worker must be approved by our insurance company based on their motor vehicle report.

Job Responsibilities

Safety

- Build and enforce site specific safety plans
- Administer and document safety inspections of job sites and workers.

Customer Experience

- Work directly with customers and address any issues or concerns that they may have in a timely manner.
- Manage all supervisory aspects of the job(s) allowing foremen and field laborers to focus solely on production.
- Set up and coordinate equipment rentals.
- Attend site meetings with customers.

Crew Morale / Culture

- Manage a crew of up to 16 workers (this can be split between several smaller job sites or centralized in one large job site).
- Hands on in all aspects of project execution. Will be expected to perform on-site training with field workers.
- Know your workforce and assign workers to projects based on skill and location.

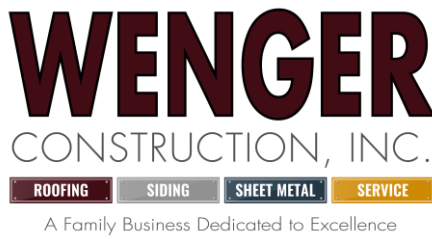

Quality

- Study product specifications to prepare appropriately for installation.
- Participate in project handoff meetings with office staff.
- Perform on site project handoff meetings with your crews.
- Predict and place orders for sheet metal fabrication that will be needed.
- Communicate needed information and data to department leadership and the rest of the office staff.

Pace

- Manage workforce hours and address workers falling short of expected pace.
- Assure pace is aligning with projected workforce hours within project bid documents.
- Attend weekly meetings with production leaders to address the state of your project(s).
- Oversee material delivery assuring for accuracy and quality.
- Stage products on the job site for field workers.
